

INSPECT X

REVOLUTIONIZE INSPECTIONS
IN ALL AREAS

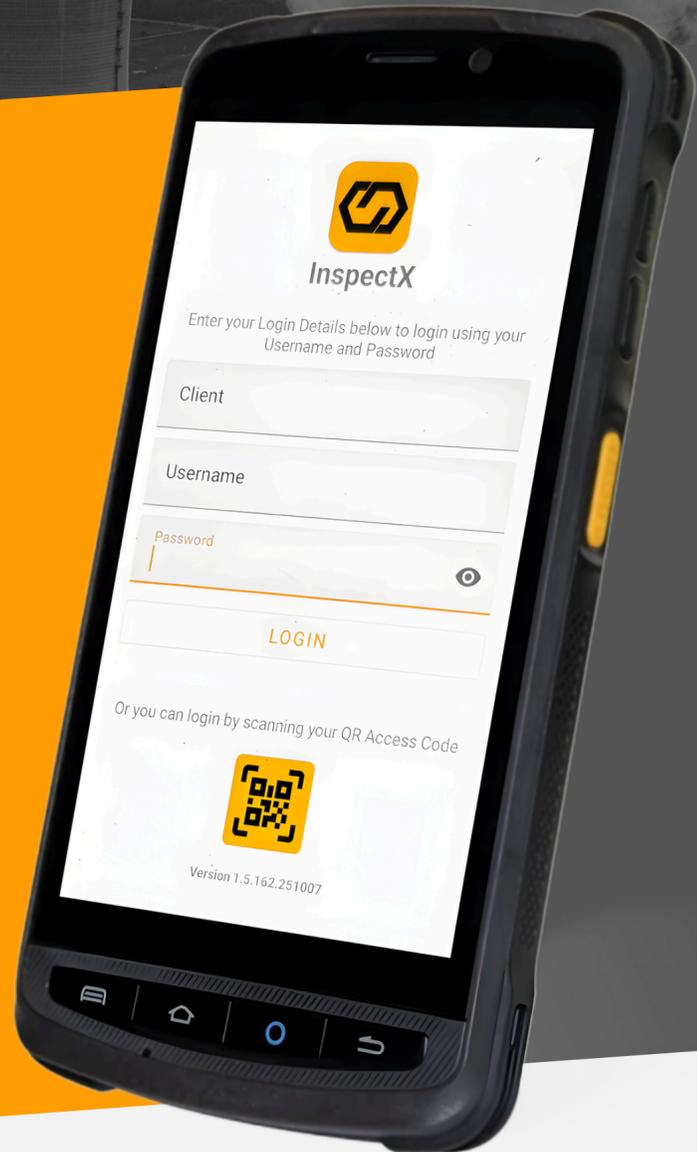

Switch to a fast, QR-code-driven Digital Inspection System and ditch the paperwork!

InspectX is a web-based inspection platform designed for use across multiple operational areas within hazardous and industrial environments.

It enables seamless, structured inspections that can be conducted on a daily, weekly, monthly, or on a periodic basis – including both visual and detailed assessments.

Compliance is critical in hazardous areas, according to the SANS Code Periodic Inspection for Hazardous Areas Equipment, reference to SANS 60079-17:2014. Understanding the requirements of visual, close and detailed inspections as they relate to the installed equipment and installations. The interval between periodic inspections shall not exceed three years without seeking expert advice.

QR-code-driven
digital inspection
system!

Eliminate Paperwork

Secure, and clear digital records and reporting

Boost Efficiency

Faster inspections with less downtime and boosted productivity

Management Reporting

Real-time reporting for management control & feedback

Ensure Compliance

Ensure compliance with visual, close and detailed inspections

Photo Verification & QR Codes

On-site verification and instant equipment information retrieval

Preventative Maintenance

Scheduling of repairs preventing breakdowns

Document Control

Uploading of certificates and Dossier Pack information

Multiple Users in Field

Multiple Devices can be used simultaneously to capture inspections

SAP Integration

Currently in Progress

Ensuring compliance and safety in hazardous environments demands a smarter, more efficient approach to inspections. Inspect X is the solution, transforming outdated, paper-based processes into a streamlined, digital-first system designed.

InspectX supports inspections across the following key disciplines:

HazLoc, Maintenance (Conveyor, Cooling Towers, Boiler Houses, Structures, etc.), Earthing, Mechanical, Electrical & Instrumentation, MCC's & DB Boards
